

Naha Branch

We will contribute to development of the Okinawa region as Sojitz Group's sole base in Okinawa.

We are pleased to inform that Naha branch is providing high-value added products and quality services in the fields of wooden building materials, foodstuffs, and other commodities through enhanced business transactions with other Asian countries, capitalizing on Okinawa's geographical advantages.

Especially, import transactions with other Asian countries, including Indonesia, Malaysia, China, Vietnam, and Thailand, in particular, occupied a high ratio of our business. We are attempting to find and develop differentiated products from other companies, and consider to offering safe and quality goods.

In addition, we are focusing our efforts on expanding distribution channels for local products to all Japan as well as to the world, and striving to promote Okinawa's products to the world markets. Furthermore, we are tried to utilizing recycled resources, establishing transactions in the fields of the environment and new energies, giving our attention to the global environment, contributing to our regions, and functioning as a community-based trading firm.

Business Vision

Wood and Building Materials

Our main business is on imports and sales of Southeast Asian wooden building materials ; flooring, laminated board, sawn timber, etc. which are considered to be best suited to Okinawa's climate and architecture. In addition, we are dealing in new building materials produced by Japan manufacturers. We will also focus on expanding commercial distribution channels in the world, and try to offer materials for a comfortable living environment.
